

Monthly Updates | February | 2021

This **February** we diagnosed children, screened them, and supported the families medically, financially, and emotionally. We are thankful to each one of you for supporting us in this journey of fighting against the **most common birth defect** in our country. The efforts of our partners and donors have contributed to making a difference in the lives of children with CHDs from underprivileged backgrounds. This year we are looking forward to saving many more lives through your support and encouragement.

Pari

Pari was only 2 months old when she was diagnosed with Patent Ductus

Arteriosus(PDA).The doctor advised the family to opt for PDA Device Closure. The family was not in a position to afford the high cost of treatment. Feeling helpless, they contacted the Child Heart Foundation. CHF in partnership with Delhi South Rotary Foundation raised funds for Pari and she got her life back.

Krishna

Krishna, a 5-year-old, was diagnosed with Tetralogy of Fallot. He required an emergency heart surgery- TOF Repair which cost Rs 4,00,000 which they couldn't afford. CHF through the support of the Delhi South Rotary Foundation facilitated the heart surgery of Krishna. Krishna is showing steady signs of recovery. CHF also helped fulfill the dream of Krishna of owning a bicycle through the Make a Wish Foundation. His father shared "I can't wait to see Krishna fulfilling his dream of traveling to his school on this bicycle."
